Winner's Circle**

Monte Carlo Series 4000

How does a race team get into the **Winners Circle**? It takes top quality planning, engineering, high performance and dependability from their equipment. Combine this with an exceptional responsible support team providing safety and comfort to the racer, and you have the elements of the winner's choice for the workplace.

The world's most prestigious race is the Monte Carlo Grand Prix. So too is the Monte Carlo ergonomic chair.

There is no race like the **Monte Carlo**. There is no chair like the **Monte Carlo**! High-class looks meet the challenge of extraordinary competition, providing elegant style combined with ergonomic comfort.

Monte Carlo's excellent seating comfort is a product of modern layered foam technology-adding contour where the body begs for comfort, yet firm support. A waterfall front seat promotes good blood circulation to your legs. The ratchet back provides adjustment simply by lifting up on the seatback to fit any users lumbar support.

While sitting in the **Monte Carlo** you can easily alter from a keyboarding position to a reclining position. As you recline, the tilt can be locked in any position. Chose a distinctive style between a mid or tall back with a built in headrest.

Le Mans Series 9000

GT

Le Mans is the race that tests both body and machine for performance and endurance.

Le Mans Rally, Sport and **GT** ergonomic seating offers high performance, comfort, and style for any winning business office. **Le Mans** guest chairs complete the seating series blending in with all your seating requirements.

Le Mans seating offers three levels of performance; The **GT** series for long term sitting; the **Sport** series for occasional sitting; and the **Rally** series for entry level sitting.

All of the **Le Mans** seating provides top quality and comfort for the way you work, with an emphasis on maintaining cohesive style, ease of operation and all the ergonomic benefits you deserve throughout the office.

Ascot Series 8000

The **Ascot** was home to America's no frills, rugged, no nonsense stockcar races. A place where both male and female competitors learned the skills to become the racing stars of the future.

Ascot seating series is a tough competitive ergonomic chair with graceful lines and great comfort. It is designed with unique ergonomic functions and is competitively priced

Ascot provides a level of performance like no other chair in its price range. Three adjustment options help to minimize fatigue while responding to the user's need for individual comfort.

Bristol Series 3000

The races at **Bristol** are known for fast action and well planned races.

The **Bristol** Executive chair is designed for business team executives and sponsors.

Elegant styling and comfort are blended into this chair providing today's executive with a proud winning ride through the business world.

A great place to sit when making powerful business decisions.

PIT STOPS AND OPTIONS

Pit stops allow drivers to make critical adjustments to their cars to get that extra ounce of performance needed to reach the Winners Circle.

The right seating options will help your drivers and team members to reach the Winners Circle in style and comfort.

The **DAKAR** Heavy Duty Option provides a Heavy-duty suspension and seating strength to handle the toughest operations 24 hours per day, 7 days per week and is rated up to 450 lbs capacity.

Size your drivers and team members, add a seat slide to the Le Mans and Monte Carlo or add some stylish improvements to the entire line with a polished aluminum base.

Darlington Series 6000

Darlington is a racetrack that is home to the world's most challenging races.

Darlington chair is designed to support your business teams in the conference room and sales office.

Darlington will handle the steep curves of the business world, while providing comfort, durability and style of a winner.
